IBEW LOCAL 343 UNION

Third Quarter Newsletter 2017
July, August, September

Groundwire

Business Manager...Chad Katzung

As Local 343 continues to grow and develop there are many things we need to continue to do in order to move forward. One of these items is the proper training for our apprentices and journeyman. I believe the time has come to move forward with a training facility in the Mankato area. I believe that a facility in the Mankato area will not only help our apprentices, but will help the IBEW as a whole. For years we were silent about our training program, we never had the ability to invite political leaders, city and school officials to see what we do and how we train. With the training center in Rochester we were able to show everyone that we have a training program that is second to none. I believe with a new facility in Mankato it will open up doors to us once again, that we will be able to show everyone in the western part of the jurisdiction that we are the best trained and that we are the most productive electricians in the industry. At the July 13 union meeting we will be voting on the purchase of a building in Mankato. Please plan on attending this important meeting.

I would like to thank all the members who took the time out of their busy schedules to make it to the wage allocation vote. The updated wage rates are included with this newsletter. Please pay close attention to your checks and make sure the changes are correct.

I look forward to seeing everyone at the summer picnic in Aug. Have a safe summer.

In solidarity

Chad Katzung

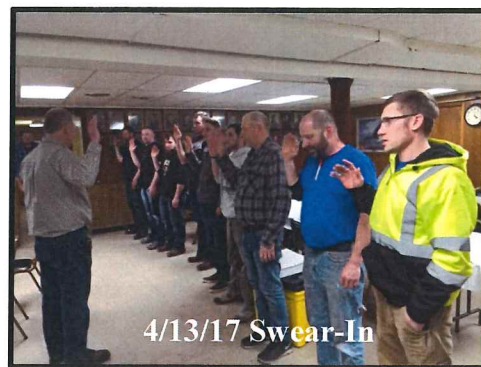

Dates to Remember:

5/11/17 Swear-In

6/8/17 Swear-In

WELCOME NEW MEMBERS!

Rochester Rep Report >>> Steve Cardell

Hello Brothers and Sisters,
It is hard to believe that a year has passed so quickly since I started this job. They say time flies when you're having fun, and I agree with that but I am also seeing how fast it flies when it's busy.

I hope that everyone is satisfied with the way the wage allocation went. Every member has a different situation and financial goal in life. This membership is one and the majority spoke. Calls have slowed some in the past month; however we are still filling most of them quite high. A lot of school projects getting underway and RPU has hired a couple JW's, we are hearing it is going to ramp up fast to meet the completion schedule. If any of you drive downtown you can see the progress on the 19 story, it appears there is going to be another hotel going downtown as well to start soon. The rest of the southeast area looks busy as well. Austin and Albert Lea have some big-money projects slated for Spring, including a recreation center and a fire station. Winona also has a lot of WSU projects going on this summer. Houston is doing upgrades to their WWTP hopefully the IBEW gets that work. Prairie Island has an outage scheduled for Oct 14th thru Nov. 17th and have projects going on now as well. Treasure Island Casino has not hired like I thought it would, Hunt has had some other projects rap up and have kept it going in house. Everybody remember to work safe and productive as that is the IBEW's best asset. Hope to see you all at the picnic this summer and remember to call with any questions or concerns. Thanks to all of you for allowing me to work for you!

In solidarity,

Organizing Department Report... by Andy Kuisle

Since the last news-letter the organizing efforts of local 343 have included visits with many contractors as well as their workers. Recently, Paxton Electric, a small shop has been started by Brother Brandon Paxton in the Rochester area. If you have the opportunity to talk with him or go to work at his shop, please be mindful to congratulate him on his new company. As the workload increases exponentially in our areas, please be mindful that we must all do what we can to make sure we man our work. The last thing we want is to push work to the nonunion, due to the inability to successfully supply labor to the projects. As the summer rolls on, I would expect that many of you will run into nonunion apprentices and journeymen that you know or have been acquainted with before at various social functions. I hope that if the talk turns to work, that you take the opportunity to explain that you are a proud Union member, and why you see the benefits of being a Union Electrician. In order for the nonunion to make a decision to join/not join the union, they must first be informed by real facts and not the garbage that we see or hear in the media about Unions.

Brothers and Sisters, work safe, and enjoy your summer.

Andy Kuisle

Our Condolences:

Retired Bro. **Lyle E. Bloedow** – Springfield, MN – Passed away 3/29/17. Lyle had been a member since March 1961

Retired Bro. **John T. Parker** – Red Wing, MN – Passed away 6/8/17. John had been a member since December 1969

Retirements/Disability:

Robert S. Hubbell –4/29/17

Steven F. Olson –5/31/17

5/18/17 Retiree Luncheon

Compliance Officer Report... Jim Backus

Becoming visible by attending various meetings and establishing relationships at various events have proven to be fruitful. This is especially true at the Chamber of Commerce events we attend as there are numerous businesses present. Andy and I began to network with a small contractor in Rochester, almost a year ago, who was hiring their own electricians. They were successful at hiring a few but could not retain them. At each of the monthly meetings we would speak with them and discuss the benefits of what we had to offer. It then became a point if we didn't see him he would approach us and talk. At our last meeting he indicated that their company is now sub-contracting to one of our Union shops and not retaining their own electricians any more. This was a great example of staying positive and professional during our continued communication with them.

The second quarter of 2017 has continued to be busy. There are numerous jobs that I currently am monitoring in the LU 343 area. Some of these are prevailing wage jobs with others being monitored for appropriate journeyworker/apprentice ratios. I have been collecting data at these various sites and will continue as the jobs progress. Part of this data collection has also been completing freedom of information act requests through various state agencies.

Remember that if you have any questions regarding laws or information on contractors please let me know. I have recently assisted some of our brothers with various requests for information on different contractors. I have various resources that I utilize to gain the information needed.

Hope to see everyone at the picnic in August!!! If anyone has any questions, requests for information or has any information regarding violations, please contact me at jimb@ibewlocal343.org or 507-951-8267.

In Solidarity,
Jim Backus

Mankato Rep Report >>> by Shane Meier

It has been a busy last 2 months trying to wrap up prevailing wage surveys in our 26 counties, the 1st of June they were turned into MNDOLI and we had a record year with 348 reports & 1,512 workers in the IBEW. Now we just have to wait until about November to find out the results. A huge thanks to all of the Contractors that turned in reports.

Owatonna/Waseca Area: School work has started in both of these areas and will be going strong all summer long. There is some road work and going on along interstate 35 with outside crews doing some street lighting work. Viracon had a couple projects bid lately and waiting to hear on them as we now have a contractor doing some maintenance work there. Muska Electric is still doing some work for CDI in Owatonna which is also a great opportunity for putting some of our members to work and showing their craftsmanship.

Mankato Area: The work picture is looking good again for this year. The hospital will be bidding shortly with an expansion around 70million dollars. There is also some school work going on in this area too, Southern Power is running a little bit behind with the underground work going on right now, but will be hiring in about a week for MJ Electric. We did land the H&M project in the Rivers Hill Mall that will be taking up about 5 tenant spaces and is a very fast moving project only going to last about 10-12 weeks and calls will be coming in shortly for that.

St. Peter: The State Hospital was awarded 70 million for some new construction and remodeling starting hopefully this summer yet. No word yet on Gustavus Adolphus College doing a Clinical Science Building. I heard they are close to reaching their funding goal.

New Ulm/Western Minnesota: Kraft Foods project has winded down along with the Menards project in this area. The work picture is slow but steady in this area with some small projects constantly bidding. There is a wind farm going in out by Marshall,MN and still waiting who will be awarded this contract.

I look forward to seeing everyone at the Summer Picnic & the Industry Nights we will be holding around our Jurisdiction, Again if you know of someone interested please have them get in contact with us at the hall, and if you have any questions about what is going on don't be afraid to give us a shout.

In Solidarity,
Shane Meier
